EXPERIENCED CONSULTANT and GROWING DEVELOPER

An empathetic and business savvy technologist who went from Big 4 technology consultant, to software developer. Brings creativity and an entrepreneurial spirit to work, and believes in self-starting and lifelong learning. Enjoys product building and rapid prototyping.

WORK EXPERIENCE

Software Developer

Student

April 2017 - Present

- Enrolled in the Georgia Tech Coding Boot Camp from April 2017 - October 2017
- Focused on full stack web development using modern tools including JavaScript, Node.js, React, Express, and MongoDB
- Building on prior college and hobby programming experience of building web applications with Java, Python, and Django

KPMG

Senior Specialist, KPMG Cyber

January 2014 – March 2017

- Acted as lead technical engineer for implementations of the CyberArk Privileged Account Security technology suite
- Developed a command line tool in Python to extract data from CSV files and upload via the CyberArk REST API
- Built a web application using Django / NGINX / PostgreSQL database to collect, present, and edit data
- Performed on-site demos of CyberArk functionality for a variety of client stakeholders while fielding technical questions
- Developed technical recommendations and specifications for integration of services including SNMP, SMTP, LDAP, and SIEM with CyberArk
- Prepared key technical and business project deliverables
- Established and maintained an internal CyberArk lab for KPMG personnel to use as a sandbox and training area
- Served as a mentor to junior staff for both soft and technical skills
